Maropost, Zendesk, Jenkin, AWS, Jira, Confluence, Gitlab, TortoiseGIT, TortoiseSVN, SourceTree, Postman, NPM, Gulp, Webpack, InVision, Photoshop, Illustrator, Sketch, Zeplin, Figma

### ABOUT ME

I am Chinh Phan - a front-end developer specializing in website development. Born and raised in Vietnam, and after 8 years of working in Ho Chi Minh City, I have recently relocated to the US permanently for a family reunion. I already have a Social card and will soon have a 10-year green card.

I find myself a passionate web developer with a mixture of technical and UX/UI design knowledge. In my work, I focus on delivering a seamless user experience across browsers and devices.

Further, I am a disciplined team member who can work independently or collaborate with others to get things done.

Another proud title of mine is being a Dad.

### EMPLOYMENT HISTORY

#### Senior Front End Developer

❖ **GLOBAL PERFORMANCE COMMERCE** April 2018 – May 2022 / HCM City

- + Deployed the website to Test/Live environment by Jenkin.
- + **Worked inside, support team member and created Widgets by HTML/SCSS/JS/GrapesJs in a Reactjs project ([ctrwow.com](https://ctrwow.com)):** Product list, Countdown, Popup, Slider, Payment, Contact form, Video, Giftcard, Installment payment, Customer forms, Tracking...
- + **I have read and followed several tutorials on Reactjs, Expressjs, Nodejs. I trust that I will adapt quickly to projects that use them. ([GitHub Repositories](#))**
- + Worked independently to integrated sticky.io, konnektive.com, and 29next.com to ctrwow.com by getting data from REST APIs.
- + Integrated payment methods: Credit Card, Paypal, Google Pay, Apple Pay.
- + Integrated tracking tools: Blueshift, FE Conversion, GTM, and Facebook Pixel.
- + Manage Zendesk landing page, Zendesk chat.

#### Front End Developer

❖ **Studio 60 Group** July 2015 – March 2018 / HCM City

- + Worked with Backend frameworks: Episerver, Kentico, Magento, Umbraco, Wordpress.
- + Converted Photoshop, sketch files to HTML/CSS/JS by using HTML, LESS or SASS.
- + I can code and work with any jQuery plugin at this time.
- + Maintained some API.net projects: updated validation rules, and changed slider plugin...
- + Support team member code Email Template.

#### Front End Developer

❖ **Sutrix Group** September 2013 – June 2015 / HCM City

- + Converted Photoshop to HTML/CSS/JS by using HTML, LESS or SASS, Grunt, Gulp
- + Writed jQuery Plugin to apply to the projects: Tab/Accorditon, Validation, Popup...
- + Compared quality of layout via Pixel Perfect add-on.
- + Worked with the Java team to build drag and drop builder.
- + Coded Email Template

### FAVORITE PROJECTS

**QueenBee** - Code/Review HTML/CSS structure of one HTML member. Code Js.  
**Hunty Ecomm** - Code/Review HTML/CSS structure of two HTML members. Code Js.
