Maropost, Zendesk, Jenkin,
AWS, Jira, Confluence

Postman, NPM, Gulp,
Webpack

InVision, Photoshop,
Illustrator, Sketch, Zeplin,
Figma

ABOUT ME

Meticulous developer specializing in website and eCommerce.

I can work independently to get things done on time, but I also like brainstorming and collaborating with my colleagues. In addition, I can learn new technologies quickly.

EMPLOYMENT HISTORY

Senior Front End Developer

❖ GLOBAL PERFORMANCE COMMERCE April 2018 – May 2022 / HCM City

+ Deployed the website to Test/Live environment by Jenkin.

+ Binding data to layout from CRM via APIs.

+ Created Widgets (Product list, Countdown, Popup, Slider, Payment, Contact
form, Video, Giftcard, Installment payment, Tracking...) by

HTML/CSS/JS/jQuery/GrapesJs for Builder: dotcms.com, ctrwow.com (A builder
is built with HTML, CSS, Javascript, ReactJs, GrapesJs).

+ Integrated sticky.io, konnektive.com, 29next.com to ctrwow.com by getting data
from REST APIs.

+ Integrated payment methods: Credit Card, Paypal, Google Pay, Apple Pay.

+ Integrated tracking tools: Blueshift, FE Conversion, GTM, and Facebook Pixel.

+ Manage Zendesk landing page, and Zendesk chat.

Front End Developer

❖ S60 Company July 2015 – March 2018 / HCM City

+ Worked with eCommerce CMS: WordPress, Magento.

+ Converted Photoshop, sketch files to HTML/CSS/JS by using HTML, LESS or
SASS.

+ I can work with any jQuery plugin at this time.

+ Maintained some API.net projects: updated validation rules, and changed slider
plugin...

+ Support team member code Email Template.

Front End Developer

❖ Sutrix Group July 2014 – June 2015 / HCM City

+ Converted Photoshop to HTML/CSS/JS.

+ Used PUG, LESS, NPM, Grunt, Gulp

+ Writed jQuery Plugin to apply to the projects.

+ Compared quality of layout via Pixel Perfect add-on.

+ Applied lots of CSS animation.

+ Used jQuery plugins like jquery validation, image map plugin, fancybox, slick slider

+ Worked with the Java team to build drag and drop builder.

+ Coded Email Template

Front End Developer

❖ CYBRIDGE ASIA September 2013 – June 2014 / HCM City

+ Converted Photoshop files to HTML/CSS

+ High quality is required, I have to compare the look of the website to the pixels in
the design.

FAVORITE PROJECTS

QueenBee - Code/Review HTML/CSS structure of one HTML member. Code Js.

Hunty Ecomm - Code/Review HTML/CSS structure of two HTML members. Code
Js.
