Illustrator, Sketch, Zeplin,  
Figma

### ABOUT ME

I am Chinh Phan - a front-end developer specializing in website development. Born and raised in Vietnam, and after 8 years of working in Ho Chi Minh city, I have recently relocated to the US permanently for a family reunion. I find myself a passionate web developer with mixture of technical and UX/UI design knowledge. In my work, I focus on delivering a seamless user experience across browsers and devices. Further, I am a disciplined team member who can work independently or collaborate with others to get things done. Another proud title of mine is being a Dad.

### EMPLOYMENT HISTORY

#### Senior Front End Developer

❖ **GLOBAL PERFORMANCE COMMERCE** April 2018 – May 2022 / HCM City

- + Deployed the website to Test/Live environment by Jenkin.
- + Binding data to layout from CRM via APIs.
